**Under the slogan "it's time she takes her spot" the global 16 Days Campaign Against All Forms of Violence Against Women will begin on November 25th and continue until December 10th.**

Throughout Palestinian localities in Israel, Kayan - Feminist Organization, along with its local groups and the Jusur Forum, has run the campaign for seven years. Participating organizations include 15 feminist and human rights organizations. In order to raise awareness and combat violence, field and media activities take place over a 16-day period. This year's campaign is centered on political violence, which is represented by sectarianism, familial ties, and other forms of patriarchal oppression, used to push women and youth away from political participation and decision-making positions. Throughout the campaign, the message is delivered directly to the community during workshops and activities on the ground, in schools, and in community centers.
